

# Fans

# RQWE

The RQWE flying lines has been designed to get high performances with a compact look, and with the widest application availability typical of variable pitch angle fans.

The blades stiffness assure reliability and silence in the heavy duty applications.

## TECHNICAL FEATURES

- 5 blades in PA66 GF30
- Diecasted aluminium hubs
- Customized diameter on request, max 504mm
- Puller clockwise rotation
- Variable pitch 30° to 50°
- Temperature range -30°C to +110°C
- Customized fixing holes
- Possibility of assembling standard diecasted alu hubs

Via Torino 272, 10040 Leini (TO) Italy
