

J11 fan is projected to reach high performances with a very compact design.

The **J11** fan solution is able to satisfy the needs of cooling system in earth-moving machines, tractor and industrial vehicles

J11

visco fans

TECHNICAL CHARACTERISTICS:

- Injected one-piece fan in PA6 GF30
- Clockwise puller rotation
- 11 blades
- 2 standard diameters (550, 620mm)
- Temperature range -30°C to $+110^{\circ}\text{C}$
- Fan diameter customized on request
- 2 standard fixing solutions
